

Should you choose solar energy for your home?

Before starting the process of powering your home with solar energy, homeowners should investigate their energy use and consider potential efficiency upgrades. Homeowners should be well aware of their total electricity usage, and consider low-cost and easy-to-implement efficiency measures before choosing solar.

What is a solar billing plan?

When you need more energy than your system can generate, like at night or on cloudy days, you will use energy from SCE's grid. The difference between the energy you consume from the grid and the energy your system delivers back is then used to calculate your monthly bill. This is known as the Solar Billing Plan.

How do I choose the best way to use solar electricity?

Before deciding on the best way to use solar electricity at home, assess the potential solar energy that can be produced at your address. Because PV technologies use both direct and scattered sunlight to create electricity, the solar resource across the United States is ample for home solar electric systems.

Does SRP offer a residential solar price plan?

SRP offers flexible residential solar price plans so you can choose one that's right for you. SRP offers demand- and export-based plans for customers with existing rooftop solar systems or other energy-generating capabilities. Find the best fit for your lifestyle. Ideal for customers who produce some of their own energy.

How does a solar plan work?

With solar plans, customers can offset their electric costs by generating some of their own power using solar panels or other energy-generating technologies. For all plans, per-kWh prices vary based on the amount of energy used and time of use. What is the peak kW demand charge?

Should I add a solar energy system to my roof?

You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy. While there's no one-size-fits-all solar solution, here are some resources that can help you figure out what's best for you. Consider these questions before you go solar. See the Spanish version [here](#).
