

Solar vacuum tubes are made up of two layers of glass with a vacuum in between, kind of like a Thermos. Naked Energy claims that its Virtu products are three to four times more efficient than traditional PV solar panels, ...

The objective is to design, develop and utilize the high-efficient solar energy collectors for the purpose of laying down technical foundation for progressive expansion of the heating range in ...

Naked Energy's rooftop vacuum tubes are similar in construction to traditional solar vacuum tubes. They unveil two products: VirtuHOT, which heats water only, and VirtuPVT, which combines photovoltaic ...

Markets Overview | Additive Manufacturing | Aerospace | Automotive | Defense | Forgings | Medical | Nuclear | Power Generation | Titanium | Tube & Pipe. Power Generation Vacuum Heat Treating Services Minimal Distortion, Bright Results. ...

This is why we use SunRain's patented '3-Hi' solar vacuum tubes. The absorbing coating found on the inner layer determines how efficient the vacuum tube will operate. The method and material of this coating will also define the life ...
