

The French overseas territory of New Caledonia has hailed the switch-on of a 16MWp solar farm, with battery energy storage to be later attached, and another standalone 5MWh battery project as significant steps towards "100% renewable energy" targets.

The French overseas territory of New Caledonia has hailed the switch-on of a 16MWp solar farm, with battery energy storage to be later attached, and another standalone 5MWh battery project as significant steps ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced ...

While traditional telecom infrastructure is minimal due to the region's isolated nature, satellite communication systems are in place to cater for the limited inhabitants. Given the remote and harsh conditions, renewable energy, particularly wind ...

In this article, Amandine Martins of Reuniwatt, Bruno Daugrois of Naldeo Technologies & Industries and Amélie Belfort of Synergie detail the interest of PV + storage with forecasting for the french overseas territories, with the exemple of a 986 kWp photovoltaic power plant installed on the roof of a supermarket on Reunion Island and coupled ...

The combination of strict land legislation, elaborate permitting and a fiercely competitive solar developer market trying to meet ambitious PV deployment targets is causing issues for the...

The region which has seen the most capacity awarded was the southern region of Occitania, with 45.5MW across 13 projects (the most for a French region), followed by the neighbouring region of...

While traditional telecom infrastructure is minimal due to the region's isolated nature, satellite communication systems are in place to cater for the limited inhabitants. Given the remote and ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

This new power plant represents another step forward for the energy transition underway in the territory and will help French Guiana meet its goal of energy self-sufficiency ...

In this article, Amandine Martins of Reuniwatt, Bruno Daugrois of Naldeo Technologies & Industries and Amélie Belfort of Synergie detail the interest of PV + storage with forecasting for the french overseas territories, ...

This new power plant represents another step forward for the energy transition underway in the territory and will help French Guiana meet its goal of energy self-sufficiency by 2030. The installation will also bring EDF closer to its Solar Plan's objectives of making it one of France's leading players of solar energy with a 30% market share by ...

EDF Renewables, a leading player in wind and solar energies in France, is announcing the commissioning of Toucan 2, a 5 MW photovoltaic power plant equipped with a smart storage system. This new power plant represents another step forward for the energy transition underway in the territory and will help French Guiana meet its goal of energy ...
