

We aim to build a sustainable future for Guam, the Commonwealth of the Northern Mariana Islands and all of Micronesia Renewable Energy, Inc. In this ever-changing world, we only offer tier-one solar energy and energy storage system products, striving to meet the increasing need for global sustainability.

We design and build high-efficiency, cost effective solar panel systems. Lower your carbon foot print, increase the value of your home or business, and **SAVE MONEY!** Guam and Micronesia's source for residential and commercial green energy solutions.

Unlike standard on-grid PV solutions, off-grid PV technology will provide electricity to your home even in a power outage, since they are not vulnerable to a utility's grids regulations. Today, over 360 million people globally have access to off-grid solar products, with the potential market for this technology only continuing to grow.

The Federated States of Micronesia are investing in solar micro-grids and battery energy storage systems as well as capacity building to increase self-sufficiency and reduce emissions. On the ...

The Federated States of Micronesia are investing in solar micro-grids and battery energy storage systems as well as capacity building to increase self-sufficiency and reduce emissions. On the island of Kosrae, 1.15 megawatt (MW) of grid-connected solar photovoltaic capacity is being installed as well as solar-diesel hybrid mini grid and rooftop ...

This project features solar PV systems on 11 government buildings. With a total installed capacity of 2.3MWp, it reduces annual diesel fuel consumption by 1.22 million liters and mitigates 3,220 tonnes of CO2 emissions annually.

AIMS Power inverters are available up to 12000 watts throughout Micronesia in 12, 24 & 48 volt models for off-grid, mobile & emergency backup power applications. **FREE SHIPPING** (some products excluded)
