

Should you rent out your roof space for a solar system?

Renting out your own roof space for the operation of a solar system offers the owner a lucrative secondary income stream. We operate the system and feed the electricity into the grid receiving a remuneration for the sale of energy. The roof owner can benefit by renting out his roof space without having to invest himself.

Do you pay upfront for a solar system?

We pay attractive prices for your roof area in order to install a solar system there. You will receive a high upfront payment or an annual roof rental for the specified duration of at least 20 years. Why is a first-time easement placed in the property register?

How much solar power does a roof generate?

In a perfect world, the average roof in the U.S. can generate around 35,000 kilowatt-hours (kWh) of solar electricity annually--far more than the average home's annual electricity usage of 10,600 kWh. Realistically, your roof's solar generation potential will be less than that.

Should you invest in a solar roof?

In this case, an investment of this magnitude is not advisable. Nevertheless, there is an easy way for these companies to exploit the solar potential of their roof area - by leasing their roof to ENVIRIA. It's uncomplicated and worthwhile: you rent out your roof to us and we install a PV system that we operate and maintain ourselves.

Should you buy or lease a solar system?

If you purchase your solar system instead of leasing it, you can take advantage of all available incentives. By owning your system, you'll typically see electricity cost savings between \$10,000 and \$30,000 over the next 25 years - which are larger savings than if you lease your panels.

How many solar panels can fit on a roof?

On average, solar panels measure about 17.5 square feet. To calculate how many panels can fit on your roof, divide your open roof space by 17.5 square feet (or however large your particular solar panels are). For example, if you have 500 square feet of open, available roof space, that's enough space for about 28 solar panels.

Let's walk through how to calculate the amount of solar power your roof can generate based on its size, orientation, and angle--as well as the solar panels you install. Find out what solar panels cost in your area in 2024
