With high reliable prediction and energy management software, the plant will feed in the Reunion Island grid a no-intermittent renewable energy. This solar power plant is a world first and paves the way for a new era of photovoltaic predictable, stable and available.

EDF Renewables is strengthening its presence on the island of Reunion with the commissioning of the RiviÃ©re des Galets solar power plant (4.6 MW). Inaugurated on October 27, 2023, this is the fourth EDF Renewables installation on the island. A new solar power plant now sits below the dizzying reliefs of Bas Mafate, on the island of Reunion.

Solar thermal collectors and photovoltaic (PV) systems are already widespread in La Reunion. 70% of households are equipped with solar domestic hot water and PV represented approximately 25% of the total installed capacity of electricity generation in 2022.
