

The grid-connected project was financed by ADFD with \$15 million under the Irena/ADFD Project Facility and will deliver enough electricity to power the equivalent of nearly 7,000 Cuban homes, reported Emirates news agency Wam.

Abu Dhabi Fund for Development, ADFD, together with the Cuban Ministry of Energy and Mines and International Renewable Energy Agency, IRENA, today inaugurated a new 10 megawatt, MW, solar PV project. The grid-connected project was financed by ADFD with US\$15 million under the IRENA/ADFD Project Faci...

The Abu Dhabi Fund for Development (ADFD), the leading national entity for international development aid, together with Cuba's Ministry of Energy and Mines, and the International Renewable Energy Agency (IRENA) have inaugurated a new 10MW solar photovoltaic (PV) project.

Abu Dhabi, United Arab Emirates, 5th July 2019 - Cuba's Ministry of Energy and Mines together with the Abu Dhabi Fund for Development (ADFD) and International Renewable Energy Agency (IRENA), inaugurated a ...

Abu Dhabi Fund for Development (ADFD), the Cuban Ministry of Energy and Mines, and International Renewable Energy Agency (Irena) have inaugurated a 10MW solar photovoltaic (PV) power plant, a \$15m (AED55.1m) project funded by ADFD that will deliver enough electricity to power nearly 7,000 Cuban homes.

Abu Dhabi, United Arab Emirates, 5th July 2019 - Cuba's Ministry of Energy and Mines together with the Abu Dhabi Fund for Development (ADFD) and International Renewable Energy Agency (IRENA), inaugurated a new 10 megawatt (MW) solar PV project in the country. The grid-connected project was financed by ADFD under the IRENA/ADFD Project ...

Abu Dhabi Fund for Development (ADFD), the Cuban Ministry of Energy and Mines, and International Renewable Energy Agency (Irena) have inaugurated a 10MW solar photovoltaic (PV) power plant, a \$15m ...

A 10 MW solar PV project has today been inaugurated in Cuba. The grid-connected plant received \$15m funding from the Abu Dhabi Fund for Development under its project facility with the International Renewable Energy Agency (IRENA) and is expected to deliver enough electricity to power the equivalent of nearly 7000 homes.

The solar PV project contributes to the Cuban government's national objectives to reduce the use of fossil fuels for electricity generation and increase the share of power from renewables to 24 per cent by 2030. This

project will mitigate ...
