

Does solar work in NZ?

Choose the right Solar Power System for you. Slash your power bill and save the planet by going solar with Harrison's, NZ's #1 solar retailer. Will Solar work in NZ? Absolutely! New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400.

How much does solar power cost in New Zealand?

According to the Electricity Authority, the average size of a residential solar power system installed in New Zealand today is 4.4 kW, which would cost roughly \$12,600*fully installed. A 4.4 kW solar power system would include 10 or 11 solar panels (depending on the size of the panels) and a 4 kW or 5 kW inverter. Is Solar Power Worth It?

Do solar panels need sunlight in New Zealand?

New Zealand has abundant sunshine and generates between 1,700 and 2,100 sunshine hours annually. Some areas, like Nelson and Gisborne, receive as much as 2,400. Solar Panels don't require sunshine; they require daylight, so Solar Panels work year-round, even in the lower South Island. How many Panels do I need?

Are solar panels a good investment in New Zealand?

A solar power system in New Zealand can easily earn a 10 to 15% return on investment. But this rate of return is likely to increase each year as the price of electricity continues to climb. Unsure if solar panels on your roof will be worthwhile or if the upfront cost will lead to a good payback?

What is the largest hybrid solar system in NZ?

SkySolar are proud to launch the largest hybrid solar system in NZ - spanning 1018 panels and a 290kWh battery bank, installed for A&G Price in Thames. This is our biggest project to date and certainly the most advanced system in the country. *Edits: 1018 x panels, 36 x batteries. "I would like to say how...
