the usage of quality components (2) High performing plant designs (3) Only company to provide Staad Pro  
certificate (4) High quality installation procedure (5) Full marks in safety measures (6) Complete  
documentation including plant manual.

Carbon capture technology is increasingly leveraging bulk solids to adsorb and desorb CO<sub>2</sub> either from the  
atmosphere or a concentrated source. Solex heat exchange technology offers a more economical heating and  
cooling alternative to traditional fluid-based solutions (e.g. MEA) within the adsorption-desorption loop.
