

What does Soluna do?

Soluna is on a mission to solve one of renewable energy's biggest challenges: wasted power. Our data centers convert excess solar, hydro, and wind energy into productive computational work, such as Bitcoin mining, artificial intelligence, and machine learning.

What is a Soluna power bank?

Soluna power banks are designed to provide you and your family peace of mind in the event of a power outage. Our power detection system will sense outages in real-time. Download our catalog and get a deeper look at our battery banks. Most energy produced occurs mid day, while peak power usage happens in the morning and evenings.

Where can solar energy be used in Nigeria?

Unlike wind energy and hydropower, which demands large open areas and large water bodies, respectively solar energy does not [39]. Solar energy can be applied in the following areas in Nigeria, including; agriculture, engineering, medical sciences, power generation, and recreation.

What are the benefits of solar energy in Nigeria?

The study was focused on the potential benefits of solar energy in Nigeria, her systems, and her applications. Solar energy is the most important renewable energy because all other renewable energies are directly or indirectly connected to it (Wind energy, hydropower, biomass, biogas, etc.).

Do solar PV systems work in Nigeria?

As for now, solar PV systems are applied to specific areas in Nigeria &quot;merely to provide additional power or to provide backup power in moments of fluctuating power supply or power outage&quot; [43]; these areas include telecom masts, street lights, and parks, etc.

Is Nigeria a good place to buy solar energy?

Nigeria is a third-world country with an abundance of sunlight, and a large population without electricity represents one of the fastest-growing markets for solar energy.

Soluna is on a mission to solve one of renewable energy's biggest challenges: wasted power. Our data centers convert excess solar, hydro, and wind energy into productive computational work, such as Bitcoin mining, artificial intelligence, and machine learning.

Soluna power banks are designed to provide you and your family peace of mind in the event of a power outage. Our power detection system will sense outages in real-time. Download our catalog and get a deeper look at our battery banks.

Energy is one of the fastest growing providers of urban solar energy solutions in Nigeria, Africa's most populous country. The company was established in 2013 and is driven to empower Nigerian's to live a transformed life by providing reliable, affordable clean electricity. We have over 2MW installed across 26 states in Nigeria.

Soluna helps the environment, provides security, and delivers independent reliable power. Our brand stands for power delivered day and night. A curved cut and subtle gradient within the ...

We will install 10 million Solar Power Systems in Nigeria by 2023, generating 40,000 Megawatts of energy for homes and businesses, releasing \$32 billion into the economy and creating 20 million jobs. Our Systems will also contribute to reducing noise and environmental pollution.

Our first loan to Solynta who operates in Nigeria. They are focusing on providing affordable solar solutions to households and SME, which is allowing their customers to replace the dependency on expensive, highly polluting generators. This loan alone is estimated to eliminate 35 000 tons of CO2 emissions. What we are financing

Despite the privatization of the Power Holding Company of Nigeria (PHCN), Nigeria's energy demand, which is always exponentially rising, still far outweighs the supply that is quite erratic. Adopting solar-thermal and solar PV technology (on a large scale) will reduce the national consumption of fossil fuel and its related products, boosting ...

Join the team solving the wasted renewable energy problem. We are a diverse, driven team of entrepreneurs, energy experts, private equity leaders, and engineers. We are passionate about making the world greener and we have conviction about how we will bring change on a ...
