

FIAMM's industrial batteries guarantee safety and reliability for the industries of telecommunications, energy storage, industrial processes, data transmission, and every application that needs a continuous and reliable energy flow. Their industrial batteries are crucial in a wide range of fields because they guarantee total dependability.

FIAMM Reserve Power Solutions is an internationally recognised leader in the development and supply of a wide range of industrial batteries and energy storage systems. We design and manufacture backup power solutions to guarantee the continuity of the energy supply to the critical applications when the main power is cut off.

Constantly devoted to seeking new energy storage systems, FIAMM Energy Technology has always focused on product innovation and production processes, and today supplies innovative mobility solutions spanning from AFB (Advanced Flooded Battery) or AGM (Absorbent Glass Mat) technology.

We offer innovative and high-performance energy storage products to meet your needs in the industrial and commercial sectors. Our wide range of products includes everything from liquid electrolyte acid batteries to long-life gel batteries, modern lithium batteries and NexSys batteries.

FIAMM Energy Technology is a multinational company engaged in the production and distribution of batteries and accumulators for motor vehicles and for industrial use born following the separation from FIAMM Group of the business of automotive batteries and industrial batteries with lead-acid technology.

Founded in 1942, FIAMM is an internationally recognised leader in the development and supply of a wide range of industrial batteries and energy storage systems. FIAMM design and manufacture backup power solutions to guarantee the continuity of the energy supply to the applications when the main power is cut off.

FIAMM Energy Technology is a multinational company engaged in the production and distribution of batteries and accumulators for motor vehicles and for industrial use, born following the separation from FIAMM Group of the business of automotive batteries and industrial batteries with lead-acid technology.

Its Acoustic Signals are present in eighty percent of vehicles produced worldwide, while in the Industrial Batteries sector, FIAMM is one of only three global producers and the third producer in Europe. FIAMM represents over 70 years of history, approximately 3,000 employees and 620 million euros in receipts.

Fiamm. A multinational company with decades of experience in the manufacture and distribution of batteries, Fiamm Energy Technology is a recognised brand leader of VRLA (valve regulated lead acid) batteries. Secure Power has a long standing direct relationship with Fiamm and has rapid access to an extensive range of Fiamm

batteries.
