

What is sonnenBatterie 10?

The centre piece of your sustainable household. The sonnenBatterie does not only store energy, it's smart. As an intelligent, backup capable, energy storage system, sonnenBatterie 10 can integrate into any existing PV system on the market. Gain your energy independence now and secure yourself against future energy price increases.

What is a sonnenBatterie?

The sonnenBatterie is a fully integrated energy storage solution with perfectly synchronized components including battery modules, integrated bi-directional inverter and smart energy management system - supplied in one easy-to-install box.

What is sonnenBatterie eco 10?

The sonnenBatterie eco 10 is an all-in-one 10 kWh solar battery storage solution and intelligent energy management software that integrates seamlessly with new or existing solar arrays to power your home or business with clean energy. This Sonnen Eco battery storage system has a 10 kWh useable capacity and delivers 7 kWh of continuous power.

Does sonnenBatterie store energy?

The sonnenBatterie does not only store energy, it's smart. As an intelligent, backup capable, energy storage system, sonnenBatterie 10 can integrate into any existing PV system on the market. Gain your energy independence now and secure yourself against future energy price increases. Your key benefits. Lower your electricity bills.

How much energy does a sonnenBatterie 10 use?

It depends on which size of system you choose. A sonnenBatterie 10 can be sized either as an 11 kWh or 22 kWh unit. This means that you can size the system to suit your needs and you won't have to worry about future energy demands, because you can simply add more capacity at a later date.

Is the sonnenBatterie 10 AC connected?

The sonnenBatterie 10 is available as an AC connected system, allowing for a seamless integration into any existing solar PV system. However, we have a sonnenBatterie hybrid which is our DC system for homes that are thinking of installing new solar panels.

Onze sonnenBatterie 10 is een thuisbatterij die kan worden gedimensioneerd als een eenheid van 11 kWh of 22 kWh. Dit betekent dat u het systeem kunt aanpassen aan uw behoeften en dat u zich geen zorgen hoeft te maken over ...
