

3 ???&#0183; South Africa, the southernmost country on the African continent, renowned for its varied topography, great natural beauty, and cultural diversity, all of which have made the country a favored destination for travelers since the legal ending of apartheid (Afrikaans: "apartness," or racial separation) in 1994.

2 ???&#0183; On the surface, 2025 seems an inauspicious year for South Africa to assume presidency of the G20. The election of Donald Trump likely heralds a new era of volatility and challenges to multilateralism, Europe is preoccupied with the potential escalation of war and unmanaged migration, and the BRICS grouping is increasing in stature. Achieving consensus ...

South Africa has the most industrialized, technologically advanced, and diversified economy in Africa. It is a middle-income emerging market with a rich supply of natural resources, with well-developed financial, legal, communications, energy, and transport sectors.

The country is one of the few in Africa never to have had a coup d'&#233;tat, and regular free and fair elections have been held since 1994, making it a regional power and among the most stable and liberal democracies in Africa. South Africa is ranked ...

South Africa is the only country that has dismantled its nuclear weapons program voluntarily. The first successful human heart transplant was performed in Cape Town, South Africa. An app developed in South Africa calculates the number of cows to pay for a bride's dowry.

2 ???&#0183; On the surface, 2025 seems an inauspicious year for South Africa to assume presidency of the G20. The election of Donald Trump likely heralds a new era of volatility and ...

The first multi-racial elections in 1994 following the end of apartheid ushered in majority rule under an ANC-led government. South Africa has since struggled to address apartheid-era imbalances in wealth, housing, education, and health care.

South Africa is the only country that has dismantled its nuclear weapons program voluntarily. The first successful human heart transplant was performed in Cape Town, South Africa. An app developed in South Africa calculates the number ...

Some of the earliest human remains in the fossil record are found in South Africa. By about A.D. 500, Bantu speaking groups began settling into what is now northeastern South Africa displacing Khoisan speaking groups to the southwest.
