

Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO₄ battery packs go beyond long-lasting power and durability--they're built with a commitment to innovation in our American battery factory.

Is Dragonfly Energy a publicly traded company?

Dragonfly Energy, a Lithium-Ion battery manufacturer, has entered into a definitive agreement for a business combination with Chardan NexTech Acquisition 2 Corp (CNTQ), a special purpose acquisition company. As a result of this deal, Dragonfly Energy will become a publicly-traded company on the NASDAQ.

What makes dragonfly energy unique?

Dragonfly Energy differentiates itself through its cutting-edge cell manufacturing processes, including a proprietary dry electrode technique that fosters domestic production and paves the way for future solid-state battery advancements. Dragonfly Energy champions sustainability in cell manufacturing.
