Who is Eneco?

Started in 2000 as a trading unit within Eneco, we have grown into the connecting link for climate-ambitious parties in the European energy chain. This goes beyond the daily buying and selling of (our own) renewable energy.

What is Eneco Energy Trade?

Eneco Energy Trade is the only integrated energy trading platform in the Netherlands. This sets us apart from all other Dutch energy companies that have their trading floors abroad. For new providers and project developers, we are an important and accessible gateway to the energy market.

How does Eneco support sustainable innovation?

Additionally, we support our own business units within Eneco to continue investing in green innovation and new propositions. Sustainable innovation is more than developing new technologies to generate, distribute, and store renewable energy.

Who owns South Georgia and the South Sandwich Islands?

The United Kingdom claimed sovereignty over South Georgia in 1775 and the South Sandwich Islands in 1908. The territory of "South Georgia and the South Sandwich Islands" was formed in 1985; previously, it had been governed as part of the Falkland Islands Dependencies.

What is the ccTLD for South Georgia and the South Sandwich Islands?

The Internet country code top-level domain (ccTLD) for South Georgia and the South Sandwich Islands is .gs. The parts of the islands that are not permanently covered in snow or ice are part of the Scotia Sea Islands tundra ecoregion.

What happened to South Georgia and the South Sandwich Islands?

In 1985, South Georgia and the South Sandwich Islands ceased to be administered as a Falkland Islands Dependency and became a separate territory. The King Edward Point base, which had become a small military garrison after the Falklands War, returned to civilian use in 2001 and is now operated by the British Antarctic Survey.

Eneco aimed to offset its emissions by supporting fuel-switch projects in the ceramic industries of Argibem, São Sebastião, and Vulcão, located in Rio de Janeiro. The challenge was to ensure these projects effectively replaced heavy oil with renewable biomass, reducing greenhouse gas (GHG) emissions while promoting local environmental and ...
