

Our solar system comes with a 25 year performance warranty, 10 year manufacturer's warranty, and 10 year warranty on workmanship (including installation). To find out if a off-grid solar panel system is right for your home or business, give us a call on 0705 130 130 or get a quote now.

An off-grid system is a standalone solar power system that operates independently of the electrical grid. It typically consists of solar panels, batteries, and inverters. The solar panels generate electricity, which is stored in batteries for later use.

When the utility power is unavailable or too expensive to bring in to your home, solar panels allow you to be your own utility company! You can live in peace, with no noisy gas generator to disturb the quiet. There are several variations of off-grid solar ...

Off-grid systems present a wide array of possibilities depending on your site, your needs, and your budget. We can design off-grid solar systems for remote cabins, telecommunications applications, remote business applications, and fully automated high end residential sites.
