Welcome to Solife Solar, your local one stop shop for all your solar needs. We have been providing various commercial and residential solar solutions to the region since 2011. Our smart solution system will help to zero your bill and save you thousands of dollars for years to come.

The Caribbean Development Bank has approved financing of \$8.6 million to St Vincent Electricity Services Ltd (Vinlec) for the supply and installation of solar photovoltaic (PV) systems at company buildings in the vicinity of the Argyle International Airport.

They are being supported by several local civil, electrical and mechanical subcontractors. Installation of the solar panels commenced in late January 2019 and was completed in February. The panels are mounted on the ground using driven piles and the solar modules have been tilted at 10 degrees.

Solife Inc. is a privately held EPC company located in St. Vincent and the Grenadines. We have been in operation since 2011 and have completed 3.8 MW of solar system installations on the island, and have consulted/assessed over 40 MW of Solar systems regionally.
