

StarPower Europe is a successful, dynamically growing company in the field of power electronics. StarPower Europe AG has opened a European R& D Centre at its branch in Nuremberg, Germany. The aim is to research and test new technologies, packages and materials for power semiconductors, in order to develop future generations of models for StarPower.

StarPower is a manufacturer of power modules specializing in the design and manufacture of IGBT modules for industrial and automotive applications. The company offers a wide range of industry standard packages and pride ourselves in providing modules from an independent chip supply.

Starpower Europe AG, based in Cadenazzo, Switzerland, was founded in May 2014 as the European subsidiary of the Chinese manufacturer of power modules StarPower Semiconductor Ltd. StarPower is a successful, dynamically growing company in the field of power electronics.

StarPower Semiconductor Ltd. is a leading power module company located in Jiaxing China about 59 miles southeast of Shanghai. Founded in 2005 with venture funds, StarPower designs and manufactures IGBT/MOSFET/IPM/FRD/Rectifier modules and customized modules for applications in the area of inverters, welding machines, inductive heating, UPS, EV ...

StarPower is a leading power module company headquartered in Jiaxing, China. Founded in 2005, StarPower designs and manufactures IGBT / MOSFET / IPM / FRD / Rectifier modules and customized modules for applications in the area of inverters, welding machines, inductive heating, UPS, EV, solar/wind power and etc. in the power range of 0.5kW up to ...

StarPower Europe is a company focused on the design and manufacturing of power modules for various high power applications within the electronics industry. Use the CB Insights Platform to explore StarPower Europe's full profile.
