Waterweb Company Limited is a limited liability company registered in the United Republic of Tanzania under The Companies Act (Cap. 212 R.E 2002). The Company is specialized in providing a range of services and products such as water pumps, water treatments, agriculture equipment, as well as solar and power solutions.

Forty-one percent of the farmers interviewed use manual (buckets) systems and 2% rely on rainfed crops. Diesel pumps (36%), canals (18%) and mechanical pumps (2%) are second, third and fourth choices, respectively. From a technical point of view, the selection of a particular irrigation system by farmers is a multi-factorial choice

In a bid to bolster economic ties and streamline its oil import operations, Uganda is currently engaged in discussions with Tanzania to explore the possibility of importing all its oil via Dar es Salaam. The potential agreement, if finalized, would mark a significant shift in Uganda's energy import strategy and further strengthen the burgeoning partnership

Water-Harvesting and Storage Systems These operate at a larger scale than the field-level micro-dams. They are usually in the lower parts of catchments and are mainly used for domestic, agricultural and livestock needs. The four main types of water-storage systems used in Tanzania for agricultural purposes are:
