

Why should you choose Su-Vastika lithium inbuilt battery ESS?

They can disrupt work, halt entertainment, and even compromise critical processes. Su-vastika Lithium inbuilt battery ESS offers All-in-One Lithium LifePO4 battery inbuilt power storage system which is not only more powerful but also portable, compact, easy on pocket (cost effective) and environment friendly.

Do Su-Vastika batteries have electrical control?

Su-vastika's lithium batteries have electrical control for low-cut and high-voltage/current charging protection. That is not available in tubular batteries. In Su-vastika's lithium batteries, a microcontroller is used to control battery charging and discharging; a digital warranty is available with a USB connection.

What makes Su-Vastika's retrofit lithium battery special?

Here's what makes Su-vastika's Retrofit Lithium Battery special: Universal Compatibility: Works flawlessly with any 12V, 24V, or 48V inverter or UPS, regardless of brand, model, or existing battery configuration (single, double, or four tubular batteries).

Can a Su-Vastika battery be installed on a wall?

Su-vastika 12V and 24V Retrofit Lithium Battery can be easily mounted on the wall and does not require a trolley to place batteries, saving lots of space. The plastic trolley has broken over a while, and it is very difficult to water the Tubular battery through the plastic trolley.

Do Su-Vastika batteries have an MCB?

Su-vastika's lithium batteries have an MCB to protect the battery's reverse polarity connection. Su-vastika's lithium batteries have electrical control for low-cut and high-voltage/current charging protection. That is not available in tubular batteries.

What is the voltage range of Su-Vastika lithium batteries?

Su-vastika Lithium Batteries are available in all voltage range viz 12.8V, 51.2V, 96V, 192V, 384V (can be customised as per customer's need) Lithium batteries, when used with inverters/UPS (Uninterruptible Power Supply), offer several benefits compared to traditional lead-acid batteries:

Su-vastika uses A1 grade LifePo4 Battery cells for high performance and safety, designed for Inverters as well as Electric Vehicles. Su-vastika has designed a lithium-ion battery bank ...

Leading provider of power solutions, Su-vastika, is happy to announce the release of their 20 KVA 3 Phase Lithium Inverter, featuring a 19.2 kWh lithium-ion battery. This system offers several functions intended to increase efficiency and convenience, save costs, and supply electricity during blackouts.

The proposed project aims to construct a new, modern power plant in Bequia with the inclusion of a 1300 kW Battery Energy Storage System (BESS) to enhance grid stability and improve the integration of supplementary renewable energy sources.

Enter Su-vastika's game-changing Retrofit Lithium Battery, a revolutionary solution designed to seamlessly replace those old, unreliable lead-acid batteries - without requiring any changes to your existing inverter or UPS!

Unmatched Backup Capacity: Su-vastika's Lithium battery can replace a 150Ah Tubular Lead acid battery, providing significantly longer backup times. Wall mount, No Trolley required: The Pure ...

Unmatched Backup Capacity: Su-vastika's Lithium battery can replace a 150Ah Tubular Lead acid battery, providing significantly longer backup times. Wall mount, No Trolley required: The Pure Sine Wave UPS with Lithium Battery can be easily mounted on the wall and does not require a trolley to place batteries, saving lots of space.

Su-vastika uses A1 grade LifePo4 Battery cells for high performance and safety, designed for Inverters as well as Electric Vehicles. Su-vastika has designed a lithium-ion battery bank which is one of its kind and will completely go to improvise the battery industry as well as the Electric vehicle industry too.

Su-vastika uses A1 grade LifePo4 Battery cells for high performance and safety, designed for Inverters as well as Electric Vehicles. Su-vastika has designed a lithium-ion battery bank which is one of its kind and will completely go to ...
