

Advanced power sources from lithium-ion (Li-ion) technology can create new cost-saving opportunities in managing fleets of Aerial Work Platforms (AWP). When paired with a robust battery management system, Li-ion technology helps managers increase worker productivity and machine uptime.

ENEROC introduces specialized 24V LiFePO4 batteries for Aerial Work Platforms, meticulously crafted for exceptional performance. The compact design ensures compatibility with various platforms, offering comprehensive operational support.

In a recent interview with Aaron Plew, Director of Product and Communications at Fullriver Battery, we gained insights into the development process of this solution and how it elevates the performance of aerial work platforms.

ROYPOW aerial work platform batteries support up to 10 years of design life and over 3,500 times of cycle life. Treating the aerial work platform battery right with proper care and maintenance will ensure a battery will reach its optimal lifespan or even further.

The PROTRXion battery pack uses intelligent features to preserve and maximize battery life despite human error. For example, a time-out feature powers down the machine after extended idle time, so it doesn't tax battery life -- and preserves the energy needed to finish the task.

ENEROC introduces specialized 24V LiFePO4 batteries for Aerial Work Platforms, meticulously crafted for exceptional performance. The compact design ensures compatibility with various platforms, offering comprehensive ...

Crown Battery is a trusted supplier of deep-cycle batteries to the leading aerial work platform manufacturers and equipment rental companies. Our batteries provide dependable power for even the most demanding equipment, operating in the toughest conditions.

ROYPOW aerial work platform batteries support up to 10 years of design life and over 3,500 times of cycle

life. Treating the aerial work platform battery right with proper care and maintenance ...

We have the right battery for every aerial work platform. We can offer the right battery for every type: from lifts, scissor lifts, mast lifts, spider lifts, telescopic booms, and articulated arm lifts to all electrically driven telehandlers.

Recommended products for your aerial work platforms and AGVs. We supply the appropriate battery for your requirements. A reliable energy supply is the backbone of uninterrupted procedures.
