

The cost of a home battery depends on the capacity of the battery (kWh), the characteristics and the brand of the inverter used, as well as installation requirements. An existing PV system with a compatible inverter can be retrofitted with a smart battery system for as little as EUR1,800 after government grants.

Introduction Features of Bluesun High Voltage Energy Storage Batteries *Modular Design for Flexible Scalability Bluesun's high-voltage batteries feature a modular structure, allowing seamless configuration of various voltage platforms (204V-409V) and capacity levels. The number of battery modules can be adjusted to meet specific project requirements. With standardized ...

Whether you need alkaline, lithium, or nickel-metal hydride (NiMH) batteries, we have the right product to suit your needs. In addition to standard batteries, we also offer a range of specialty batteries designed for specific applications.
