

The solar array is made up of Solar World solar panels, which is our preferred solar panel manufacturer from the USA. The mounting has been developed by Pacific Solar & Photovoltaics and is structurally engineered to withstand typhoon winds up to 170mph sustained winds, which meets Guam's building code requirements.

GUAM | Generation Renewable provides state of art technology for sustainable energy independence now and all future generations. Solar Energy, Renewable Energy, Sustainable Energy - Residential, Commercial, Local & Federal ...

We design and build high-efficiency, cost effective solar panel systems. Lower your carbon foot print, increase the value of your home or business, and SAVE MONEY! Guam and Micronesia's source for residential and commercial green energy solutions.

Our panels capture the sun's energy, channel it through discreetly placed wires to an inverter, where it's converted to electricity to power your home. When your solar power system produces more power than you need, It feeds the power back into the electricity grid.

In Guam, homeowners and businesses can benefit from several state and local government incentives to install solar panels and battery storage systems. The Guam Power Authority (GPA) offers a Net Metering Program, which allows solar system owners to receive credits for the excess electricity they generate and feed back into the grid.
