

Upgrade your farm's irrigation with the ClimateSmart(TM) Battery with RainMaker 2C, perfect for farms under 2 acres. This powerful solar water pump offers a maximum head of 20m and a flow rate of 3.0m³/hour, providing efficient and reliable water delivery. Enhance your setup with optional addons like a single-panel solar stand.

A Solar battery collects the energy from the sun during the day, storing it to use when you need it most--making it a consistent, dependable, and sustainable source of energy. Solar energy is cheaper than fossil fuels, but that does not mean that installing Solar panels on your roof will automatically save you money.

The compact, modular systems are equipped with battery storage to enable farmers to water their crops at any time of day - minimising evaporation - and also have drip irrigation systems to target water where it is most needed. Farmers can also use the systems to charge small devices such as mobile phones.

5 ???· The production of electric vehicles in Spain has risen from just 16,000 models in 2019 to 323,000 in 2023, but that is still 13% of the total output of 2.4 million vehicles produced, according to ...
