

Who is sunovation?

Well-known, internationally operating architectural offices and construction companies rely on SUNOVATION's expertise in building integrated photovoltaics (BIPV). The world's largest BIPV projects in recent years have been realised by SUNOVATION.

Where is sunovation located?

Obernburg, December 2023 - SUNOVATION is moving into its new headquarters in Obernburg at the end of the year. The office building in the Bavarian Untermain region, near Frankfurt, scores with its central location for customers, business partners & employees as well as direct access to the main traffic routes in the Rhine-Main area.

What is sunovation eForm?

High-quality, uniformly colored photovoltaic glasses without visible PV technology. Convincing features. Glass-glass modules SUNOVATION eFORM are dimensioned and manufactured on a project-specific basis. Give free rein to your creativity; play around with geometries and dimensions.

Who made sunovation eForm modules?

The SUNOVATION eFORM unichrome modules installed in the facade and the semi-transparent glass-glass modules in the roof were sponsored and individually manufactured by module manufacturer SUNOVATION. Team MIMO developed a concept for resource-efficient redensification at SDE 21/22 according to their claim 'MINIMAL IMPACT - MAXIMUM OUTPUT (MIMO)'.

What can sunovation do for You?

The renowned innovation location in Obernburg is already home to long-established companies from the fields of robotics & system integration. In future, SUNOVATION will work on the realization of concepts for building-integrated photovoltaics in over 600 m² of office space with a flexible workplace concept & modern equipment.

Who sponsored sunovation eForm clear?

The individually dimensioned photovoltaic modules SUNOVATION eFORM clear for the solar facade and solar roofing were sponsored by module manufacturer SUNOVATION. Team Local+ competed at SDE 21/22 with the vision "Local+ is more than just housing - we bring movement into your life".

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Saint Pierre and Miquelon varies throughout the year. The wetter season lasts 6.0 months, from October 17 to April 18, with a greater than 34% chance of a given day being a wet day. The month with the most wet days in Saint Pierre and ...
