Solaria is a planet in Isaac Asimov's Foundation series and Robot series. Inhabited by Spacer descendants, Solaria is the fiftieth and last Spacer World settled in the first wave of interstellar settlement. It was occupied from approximately 4627 AD by inhabitants of the neighboring world Nexon, originally for summer homes. It was ruled by a Regent after it became independent ...

Our results highlight the complexity of past Indigenous and tribal land use. Especially in data-poor regions like Suriname, additional palaeoecological and archaeological research is needed for deeper insights ...

OverviewHabitats and speciesNature Protection Act 1954 and the Game Act 1954Protected areasInternational conventionsSee alsoExternal linksThe coast of Suriname is wild and consists of mud banks, sand beaches, mangrove forests and lagoons. The Guiana current flows along the coast of Suriname. The North Brazil Current, a warm water ocean current, is renamed as the Guiana current. The confusion surrounding its name is due partly to the seasonal change in flow of nearby currents. The mangrove forests have only o...
