The Suriname Energy Chamber officially launched the Suriname Energy Guide Edition 2024/2025 on July 31, 2024, at the Marriott. The event highlighted the guide's significance for the energy sector, followed by addresses from distinguished guests. A networking reception concluded the ...

It also includes non-energy uses of energy products, such as fossil fuels used to make chemicals. Some of the energy found in primary sources is lost when converting them to useable final products, especially electricity. As a result, the breakdown of final consumption can look very different from that of the primary energy supply (TES).

The Suriname Energy Chamber (SEC) consists of a multidiscipline team of enthusiastic, dynamic and innovative members that sees a bright energy future for the country of Suriname. Our success is based upon a simple formula that sustainability of any energy based endeavor is based upon cooperation and collaboration from both the Private and ...

Suriname is poised to join the world stage as a global energy supplier after French supermajor TotalEnergies and US independent APA green-lighted the country's first major oil and gas development last week. The \$10.5 billion deepwater GranMorgu project puts the small South American nation on the map as a future producer and likely exporter of ...
