Suriname phelas energy

Who is phelas?

Established in 2020,phelas is changing the game in renewable energy storagewith our unique Aurora project. We have a team of skilled experts who work on making energy storage easy to move and use. Our focus is on creating simple yet effective ways to store renewable energy,helping to make a greener,more sustainable future.

What is phelas energy storage?

We at phelas are developing an electricity storage system to use solar and wind power even when the sun is not shining and the wind is not blowing. Our Aurora Liquid Air Energy Storage(LAES) system is at the heart of this vision,transforming renewable sources into a stable,around-the-clock power supply.

Is phelas the future of telecommunications?

Deutsche Telekom hub:raum Fund sees phelas' technology as a promising component for further exploration in ensuring network reliability and resilience in the telecommunications sector, aligning with their vision of a 100% renewable and secure communication network. "phelas is leading the charge in transforming the energy storage system space.

What does phelas do?

Our focus is on creating simple yet effective ways to store renewable energy, helping to make a greener, more sustainable future. At phelas, we're all about turning the promise of renewable energy into real, workable solutions.

What is phelas liquid air energy storage (LAEs)?

Phelas founder Justin Scholz spoke to RESET and explained some of the advantages that LAES has over traditional batteries: "Phelas' Liquid Air Energy Storage (LAES) offers many features that cannot be covered by conventional technologies.

Why did phelas start?

CEO Justin Scholz of phelas shared the core vision: "Making 100% renewable energy globally a no-brainer. We started phelas to make this vision reality and enable our customers build the renewable energy system of the future. Renewables + storage must become the cheapest, most sustainable, and most reliable power supply globally."

Das in München ansässige Start-up phelas wurde im Jahr 2020 gegründet und konzentriert sich auf die Revolutionierung des Energiespeichersektors mit der Vision, 100% erneuerbare Energien weltweit zum Selbstläufer zu machen. Das Start-up hat sich auf die Entwicklung seiner Aurora-Langzeit-Energiespeicher spezialisiert, einer proprietären Flüssigluft ...
