[illegible]

Jan Mayen is a volcanic island in the Arctic Ocean located at the border of the Norwegian Sea and the Greenland Sea. The single island covers an area of 377 square kilometres (146 sq mi) and is dominated by the 2,277-metre (7,470 ft) tall Beerenberg volcano. The island's only population is a combined military and meteorological outpost that operates a LORAN-C ...

Foreign Trade of Svalbard and Jan Mayen of NCE electrical parts - waste and scrap of primary cells, primary batteries and electric storage batteries; spent primary cells, spent primary batteries and spent electric storage batteries; electrical parts of machinery or apparatus, not specified or included elsewhere in this chapter:

Jan Mayen is a volcanic island located 71°N and 8°W with an area of 373km². The island was discovered by Jan Jacobs May von Schellinkhout and named for him by his first mate and mapmaker. Jan Mayen was a center of whaling activity until 1640-1650. Jan Mayen was selected by Austria as a base for the first International Polar Year (1882-83).

The flora of these islands in the European sector of the Arctic does not differ greatly from the general aspect of the flora of Greenland in the west, Franz Josef Land and Novaya Zemlya in the east, or Kola and northernmost Norway in the south. This especially concerns Bear Island and Jan Mayen, both of which are inhabited by a meager flora.

As expert battery manufacturers, SEC offers cutting-edge, deep-cycle, VRLA, AGM and Gel battery technology. We also have Lithium, Lead Acid and Ni-Cad batteries to meet the large-scale, specialist needs of industrial power users.
