

TAG has been and continues to evaluate new acquisitions and joint venture opportunities in Egypt and the Arabian Gulf area, specifically Bahrain and Oman in order to expand and find the right fit for the Company's portfolio

TAG Energy offers end-to-end acquisition and procurement services to clients in both the upstream & downstream sectors. Our close relationships with leading manufacturers from around the world gives us access to a comprehensive range of innovative products and full after sales technical support.

TAG Oil Ltd. ("TAG", "TAG Oil" or the "Company") has adopted the standard of six thousand cubic feet of gas to equal one barrel of oil when converting natural gas to "boe," which may be misleading, particularly if used in isolation.

TagEnergy, founded in 2019, spearheads the energy transition by investing in competitive and clean power stations across the UK, Australia, Spain, Portugal, and France. With a 12GW portfolio, we drive the shift to renewables, providing reliable and affordable energy while championing social responsibility and market competitiveness.

Toby Pierce, CEO and Director of TAG Oil Ltd. (TSXV: TAO | OTCQX: TAOIF), discusses the company's latest results from its first horizontal well at the Abu Roash "F" (ARF) formation in the Badr oil field (BED-1) and the company's plans for the rest of 2024.
