

In the UK, Kajima has established Taiyo Power & Storage, a joint venture with Low Carbon Alliance. Taiyo is currently developing a portfolio of +200MW of large-scale ground-mounted solar PV and +200MW of battery energy storage facilities through to Ready-to-Build.

We partner with the Public Sector to provide funded solutions for on-site renewable energy generation from either ground mount or roof top solar PV projects. Where generated electricity is either directly supplied to the building on a long-term power sale agreement, or a sleeved Power Purchase Agreement from utility scale solar farms.

Taiyo Power & Storage is a new, renewable energy joint venture between Low Carbon Alliance and Kajima Europe. Taiyo will utilise the strengths of its partners to deliver quality-driven renewable energy projects that have a positive impact for both people and planet.

Taiyo Power and Storage, a joint venture between Kajima and Low Carbon Alliance, has unloaded a 37.3-MW greenfield solar project in England to British power generator Infinis Solar Developments Ltd. Search

Taiyo Power and Storage wants to install thousands of panels between Gorseinon and Fforestfach, although they would cover only 34 hectares of the 90-hectare site. The project - called Parc Solar Caenewydd - would be created in the Afan Llan valley on land mainly south of Swansea Road and the A484, where Day's Motorpark is located.

Low Carbon Alliance Limited (LCA) and real estate investor Kajima Europe have formed a new joint venture targeting UK solar and storage. This joint venture - named Taiyo Power and Storage Limited, with Taiyo meaning sun in Japanese - is to initially develop a portfolio of ground-mounted solar, solar and battery hybrid and standalone battery ...
