

Who is Taranis & energy for Africa?

Taranis is an investment and asset management company owned by Perenco Group. Energy for Africa is Taranis' investment arm dedicated to power generation across Africa. We focus on renewable energy (both on-grid and off-grid) as well as on conventional technologies.

What is Taranis objective?

Taranis objective is to deploy this strategy within Perenco group geographies. Taranis is an investment and asset management company owned by Perenco Group. It operates through distinct investment fund.

What is Taranis nature-based solutions?

Through Taranis Nature-Based Solutions, Taranis is investing in projects to protect or restore natural ecosystems. Our ambition is to promote projects which preserve or improve carbon absorption of ecosystems such as forests, grassland, wetlands or coastal areas while also benefiting local communities and biodiversity.

Taranis Energy designs, builds and finances power generation and heating plants of all sizes (1 MWE to over 100 MWE), including biogas, biomass, cogeneration and steam. Use the CB Insights Platform to explore Taranis Energy's full profile.

We focus on renewable energy (both on-grid and off-grid) as well as on conventional technologies. Our investment philosophy is characterized by a diversity of investment models (through investment funds, direct minority investments, JVs...) and strong partnerships, with the aim to drive value creation and execution excellence in our portfolio.

6 ???&#0183; In addition to these assets, Taranis gains a skilled team specializing in the development, operation and maintenance of solar, hybrid solar-storage and wind projects. "Through this transaction, we are delighted to give new impetus to the portfolio of projects that the Akuo teams have developed in Africa," said Eric Scotto, Chairman of Akuo ...

This strategic acquisition will enable Taranis to strengthen the activities of its Energy for Africa fund, integrating Akuo's local portfolio of projects and the recognised expertise of its teams in the development of renewable energy in Africa.
