

Terra Solar embodies a bold vision: to build the world's largest single-location solar farm in the Philippines. The Project will revolutionize solar energy generation, reduce emissions, and meet the country's growing demand for dependable and sustainable power.

The Philippines is showing real purpose on the energy transition and no project represents this more than the Terra Solar Project. It will co-locate solar PV with battery storage on a scale the region hasn't seen before, backed by a sizeable PSA, to deliver a stable renewable power supply to the main grid of Luzon in the Philippines.
