

Enter battery energy storage systems (BESS). When intermittent energy sources like wind and solar go offline, batteries can release stored energy and provide greater reliability and stability to the Electric Reliability Council of Texas (ERCOT) system.

Energy-Storage.news" publisher Solar Media will host the 5th Energy Storage Summit USA, 19-20 March 2024 in Austin, Texas. Featuring a packed programme of panels, presentations and fireside chats from industry leaders focusing on accelerating the market for energy storage across the country. For more information, go to the website.

Enel North America, the subsidiary of Italian utility Enel, has started operations at its 326MW solar-plus-storage plant in the US state of Texas. The Stampede project started producing power in June 2024 for its solar PV part, while the 86MW battery energy storage system (BESS) is currently undergoing final commissioning.

Battery energy storage systems (BESS) store and hold energy until it's needed, but they are proving to be key to solving grid capacity and resilience issues, as energy demand skyrockets and...

Investment bank JP Morgan have closed a tax equity financing of US\$680 million for solar and storage projects in the US. ... a 250MW solar farm in Mineral, Texas. The company expects both projects to reach commercial operation in 2024, and by the end of the year the company aims to have 2GW of solar capacity in operation in the US ...

6 Texas's energy storage growth helped reduce ERCOT real-time power pricing by an average of about \$31/MWh in 2024 compared with 2023 and by an average of about ...

The battery storage systems will be delivered to an independent power producer (IPP) customer, FlexGen said in a press release sent to Energy-Storage.news yesterday. While the customer has not been named, FlexGen ...

Utility CPS Energy and IPP Eolian have entered into storage capacity agreements for two battery energy storage system (BESS) projects totalling 350MW of power capacity in the ERCOT, Texas market. CPS Energy, which covers the city of San Antonio, has procured the BESS capacity as part of its Vision 2027 generation plan, and the deal builds on ...

London Stock Exchange-listed energy storage investor-developer Gore Street has acquired a portfolio of eight energy storage assets in Texas, US. It follows the energy storage fund entering the German market with the acquisition of a 90% stake in a 28MWh operational energy storage asset in Cremzow earlier this month.

5 ???&#0183; Energy demand in Texas has skyrocketed over the past two years. Large capacity additions of energy storage (5 GW) over the course of one year in Electric Reliability Council ...

The project comprises 90 Sungrow individual battery units and connects to the ERCOT grid via the Long Draw 138kV substation owned by Wind Energy Transmission of Texas. As reported by Energy.Storage-news in November 2023, Aypa Power partially financed the project through a US\$550 million portfolio debt and tax equity financing package from First ...

One of Broad Reach Power's earlier Texas projects under construction. Image: Broad Reach Power. Two 100MW battery energy storage system (BESS) projects in Texas have been brought online by independent ...

6 ???&#0183; The partnership will extend to the community, with OCI Energy pledging a \$250,000 contribution to the University of Texas at San Antonio for educational initiatives. The Alamo ...

Texas's battery storage capacity has increased about 2,500% since the 2021 winter storm. ... Energy storage systems fill a summertime gap between 7 p.m. and 9 p.m. when Texans are running their ...

Energy-Storage.news" publisher Solar Media will host the 5th Energy Storage Summit USA, 28-29 March 2023 in Austin, Texas. Featuring a packed programme of panels, presentations and fireside chats from industry ...

6 ???&#0183; Texas's energy storage growth helped reduce ERCOT real-time power pricing by an average of about \$31/MWh in 2024 compared with 2023 and by an average of about \$160/MWh in August, the peak demand ...
