

# The largest solar power station in Southeast Asia

What is the largest floating solar power plant in Southeast Asia?

(Credit: MASDAR) The Cirata Solar Floating Photovoltaic (FPV) Power Plant in Indonesia is the largest floating solar power plant in Southeast Asia. The first phase of the project, which has a capacity of 145 MWac (192 MWp), was opened in November 2023. It entailed an investment of approximately \$129m.

What is Indonesia's largest floating solar power plant?

On November 9, 2023, Indonesia's President Joko Widodo inaugurated Southeast Asia's largest floating solar power plant in the Indonesian province of West Java. It is also the third-largest floating solar farm in the world.

What is the biggest solar PV project in Southeast Asia?

The biggest operational solar PV project to date in Southeast Asia is the 132.5 MW Cadiz Solar Power Plant located in the province of Negros Occidental in the Philippines. The plant is owned by Helios Solar Energy Corporation and is being operated and maintained by Bouygues Construction.

Who inaugurated the 192 megawatt-peak capacity floating solar power plant?

President Joko Widodo officially inaugurated the 192 Megawatt-peak capacity floating solar power plant on Thursday (9/11/2023) at the reservoir built in 1984. This environmentally friendly power plant is the largest in Southeast Asia and the third-largest globally. "It is our dream to build large-scale renewable energy has finally come to fruition.

Where is Indonesia's 192mw floating solar plant located?

The 192 MWp floating solar plant, developed by Indonesia's state-owned utility company PLN and Abu Dhabi Future Energy Company - Masdar, has been put in operation at Cirata hydropower reservoir in West Java, Indonesia.

Where is Cirata Floating photovoltaic power plant located?

The Cirata Floating Photovoltaic Power Plant is located in Indonesia's West Java province. The project was built on a 250-hectare plot within the 6,200-hectare Cirata Reservoir of an existing hydropower plant.

But solar and wind power each account for less than 1 per cent of Indonesia's power mix, as South-east Asia's largest economy still relies heavily on fossil fuels to generate ...

Beijing, 4 July - Asian countries now make up five of the top ten solar-powered economies thanks to a decade of growth that has enabled a number of Asia's biggest economies to significantly ...
