Timor-Leste super solar

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Is Timor-Leste a good country for solar energy?

Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia, where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

How long does a solar system last in Timor-Leste?

High electricity costs and readily available solar radiation mean that the average payback period for a rooftop photovoltaic (PV) solar energy system in Timor-Leste is only 1.5 to 3 years instead of the global average of 6-10 years. Transitioning to solar can also help the country meet environmental commitments.

Does Timor Leste have a country Factsheet?

Specifically for Timor Leste, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.

Is a solar-powered Grid a good idea in Timor-Leste?

With the new UN reforms, the United Nations in Timor-Leste, under the leadership of the Resident Coordinator has now started lighting the way with its solar-powered grid which has begun to give maximum dividends. A powerful 300 kWp photovoltaic system is producing 400,000 kWh of clean electricity annually, filling critical gaps in energy supply.

What does a solar technician do in Timor-Leste?

Technicians in Timor-Leste have experience in small-scale,off-grid solar energy systems. Commercial or industrial scale installations are more complex and appropriate technical capacity is scarce.

1. Timor-Leste's achievements as the newest country in Asia are underpinned by its commitment to reconciliation, inclusion and democracy. Emerging from Portuguese colonial administration and Indonesian occupation, the nation restored independence in 2002, amid a state of ruins where basic services and institutions were burnt to ashes.

UNDP Timor-Leste, Obrigado Barracks Caicoli Street, Dili, Timor-Leste lin.cao@undp Duration: 2004-2009 Cost: USD 523,350 Project brief:PREDP piloted three types of renewable energy devices in rural areas of Timor-Leste, focusing on isolated villages. It aimed to understand the constraints and challenges in disseminating
