

Does Luxembourg pay for solar panels?

In Luxembourg, many financial incentives offer to reimburse the cost of installing solar panels. What's more, you can opt to consume the energy produced by your panels yourself, and thus reduce your energy bill. How do you install panels on your roof? How does the installation work? What assistance is available in Luxembourg?

How much does electricity cost in Luxembourg?

For example, for an installation of up to 10 kWp completed in 2022, the Luxembourg government will buy back your electricity at the same rate for 15 years, i.e. 0.1506 per kW/h. As a quick comparison, in France, these prices are re-evaluated every quarter and are set at EUR 0.1493 per kW/h in October 2021.

Where to install solar panels in Luxembourg?

Ideally, choose a company "Made in Luxembourg" and approved by the Klima agency to install your solar panels. We work with the most serious and reputable companies in Luxembourg for the installation of solar panels. If you would like a quote for your project, request a free quote.

How can Luxembourg encourage the adoption of solar energy?

To encourage the adoption of solar energy, the Luxembourg government has set up a range of grants and subsidies that make the installation of solar panels even more attractive. The programme Klimabonus offers to reimburse up to 62.5% of the cost of the photovoltaic installation for self-consumption contracts.

What's next for solar panel and heat pump grants in Luxembourg?

Residents of Luxembourg can currently benefit from 62.5% state support when installing solar panels, a policy in place until 1 July 2024. Since early 2024, the Socom company has been producing solar panels in Hollerich.

Why is Luxembourg part of the EU electricity market?

Being part of the EU electricity market allows Luxembourg to import and export electricity, balancing supply and demand more efficiently. The interconnectivity with neighboring countries, such as France, Belgium, and Germany, plays a crucial role in Luxembourg's energy strategy.

5 ???· The price of electricity can fluctuate a lot during the day and charging an electric car consumes a lot of electricity. With the cost of electricity today in Luxembourg it is 15.25 EUR cheaper to charge at the hours with the lowest price.
