

Where is the largest solar power plant in Togo?

The solar power plant is located in Blitta, a division in the Central Region. With a capacity of 50 MWp, the Mohamed Bin Zayed plant becomes the largest utility-scale solar park in Togo, and indeed in the West African sub-region. The new facility, which supplies clean energy to Togo's national grid, increases the country's energy autonomy.

Who owns soleva solar?

Soleva was founded in June 2019, by Charles Sena Ayenu, a Togolese, and Andrew Carter, an Anglo-American. When it launched, the firm said it hoped to sell 300,000 Sun Kingsolar kits over five years. Following the acquisition, Sun King, the world's biggest off-grid solar energy company, said it would keep Soleva's commitments.

Is Sun King still serving Togo's underserved population?

"We are very pleased that Sun King is continuing the mission we began when we founded SOLEVA Togo in 2018, and we wish them great success in serving the underserved population in Togo," said Charles Sena Ayenu and Andrew Carter, co-founders of SOLEVA.

Where is the largest solar power plant in West Africa?

The largest solar photovoltaic plant in West Africa is now operational. The facility with a capacity of 50 MWp is located in Blitta, in the Central Region of Togo. The solar power plant is owned by the Emirati independent power producer (IPP) Amea Power.
