

A solar-plus-storage project combining 300kW of PV and a 2MWh battery energy storage system (BESS) has been installed in the Polynesian archipelago nation of Tonga. The project on the island of Vava'u was commissioned by Tonga Power Limited (TPL), the country's sole electric utility, on 14 March.

A special event today marks the official opening of Tonga's first ever large-scale Battery Energy Storage Systems (BESS) by the Prime Minister Hon. Hu'akavameiliku. The two Battery Energy Storage systems are ...

Battery Energy Storage Systems are a vital component to reaching Tonga's 50% Renewable Energy target by end of year 2020. Battery Energy storage systems will be able to store renewable energy generated from our existing solar and ...

Nuku'alofa - Prime Minister Honourable Hu'akavameiliku said the opening of Tonga's first ever large-scale Battery Energy Storage Systems at Matatoa in Tofoa here on Tongatapu on Tuesday, October 25 marks a significant milestone and tangible progress towards the Government's national objectives for the energy sector, towards our nation ...

The two Battery Energy Storage systems are deliverables of the Tonga Renewable Energy Project (TREP) located in two separate locations. The first BESS, which is for grid stabilization, is located at the Popua Power Station ...

The two Battery Energy Storage systems are deliverables of the Tonga Renewable Energy Project (TREP) located in two separate locations. The first BESS, which is for grid stabilization, is located at the Popua Power Station and the second BESS, which is for load shifting, is located right behind NEMO's new operations facility in Matatoa, Tofoa.

Tonga Power Limited is currently undertaking renewable energy projects, network upgrade projects aswell as Battery Energy Storage projects which all contribute to ensuring Tonga Power provides power that is sustainable, reliable and safe for the people of Tonga. Learn more about our projects plans and progress by clicking the links below.

A special event today marks the official opening of Tonga's first ever large-scale Battery Energy Storage Systems (BESS) by the Prime Minister Hon. Hu'akavameiliku. The two Battery Energy Storage systems are deliverables of the Tonga Renewable Energy Project (TREP) located at the Popua Power Station and at Matatoa, Tofoa.

Battery Energy Storage Systems are a vital component to reaching Tonga's 50% Renewable Energy target by

end of year 2020. Battery Energy storage systems will be able to store renewable energy generated from our existing solar and wind generation sites and distribute it to the people of Tonga when required.
