Gambia: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

The Government of The Gambia, through the Ministry of Petroleum and Energy and The National Water and Electricity Company (NAWEC), along with the European Investment Bank, the European Union, and the World Bank, has recently inaugurated a new milestone in the Gambia Electricity Restoration and Modernization Project (GERMP). The Inauguration ...

Across the continent, the company's profits have come at an enormous cost to local communities and the environment. In Cabo Delgado in northern Mozambique, TotalEnergies' Liquid Natural Gas (LNG) project has contributed to the emergence of a humanitarian crisis, with communities facing violence, displacement, and human rights abuses.

The Company's history tells of an industrial saga and a human endeavour set against the backdrop of social, technological and geopolitical changes. Its history also relates the story of a company that was created from scratch back in 1924 under the name Compagnie française des pétroles with the aim of ensuring France's energy independence ...
