The electricity sector in Bolivia is dominated by the state-owned ENDE Corporation (Empresa Nacional de Electricidad), although the private Bolivian Power Company (Compa ia Boliviana de Energ a El ctrica; COBEE) is also a major producer of electricity.

Bolivia continues to make efforts to upgrade the infrastructure needed for renewable energy production. The National Interconnected System (SIN), which the government has put in place, aims to improve the nation's capacity for producing electricity by building additional power plants, transmission lines and substations.

OverviewElectricity supply and demandAccess to electricityResponsibilities in the electricity sectorRenewable energy resourcesHistory of the electricity sectorTariffs, cost recovery and subsidiesInvestment and financingThe electricity sector in Bolivia is dominated by the state-owned ENDE Corporation (Empresa Nacional de Electricidad), although the private Bolivian Power Company (Compa ia Boliviana de Energ a El ctrica; COBEE) is also a major producer of electricity. ENDE had been unbundled into generation, transmission and distribution and privatized in the 1990s, but most of the secto...
