

# Trinidad and Tobago The Largest Solar Power Plant in the World

Who is building the largest solar project in Trinidad and Tobago?

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

Who owns 148mw solar project in Trinidad & Tobago?

The Government of the Republic of Trinidad and Tobago (GoRTT) has approved the consortium partners 148MWp solar project. The consortium have reached the Final Investment Decision, with bp and Shell initially having joint shareholdings of the project (50/50).

Why is BP launching a green energy project in Trinidad & Tobago?

The Trinidadian government initiated a call for green energy projects as part of its Paris Agreement commitment to reducing greenhouse gas emissions from power generation by 15% by 2030. BP Trinidad and Tobago president David Campbell commented on the project's significance in advancing the country's renewables industry.

Who oversees Trinidad's green energy projects?

Construction will be overseen by Lightsource BP. The Trinidadian government initiated a call for green energy projects as part of its Paris Agreement commitment to reducing greenhouse gas emissions from power generation by 15% by 2030.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

Can Lightsource BP accelerate the energy transition in Trinidad & Tobago?

With the experience of bp and Shell, as major operators in Trinidad and Tobago's energy industry, combined with Lightsource bp's global solar expertise, the group represents the huge potential to accelerate the energy transition through collaboration.

The two sites will have a combined capacity to generate a total of 112.2 mw of solar electricity, more than the total generating capacity of most islands in the Eastern Caribbean. This will be the largest solar project in the Caribbean when complete.

PORT OF SPAIN, December 12, 2022 - Lightsource BP, Shell and BP have received government approval for Trinidad and Tobago's first large-scale solar project, Lightsource BP announced on Friday. The 148-MWp project is held 50-50 by Shell and BP, who have reached an FID and plan to begin development in early 2023.

# Trinidad and Tobago The Largest Solar Power Plant in the World

With locations at Brechin Castle (with 122 MWp) and Orange Grove (with 26 MWp), the project is expected to produce enough power for the equivalent of 42,500 homes. "This is a big deal for Trinidad and Tobago, as the first commercial-scale solar project and the largest in the Caribbean, and it's great to see the energy transition in Trinidad ...

PORT OF SPAIN, December 12, 2022 - Lightsource BP, Shell and BP have received government approval for Trinidad and Tobago's first large-scale solar project, Lightsource BP announced on Friday. The 148-MWp project is held ...

The Government of the Republic of Trinidad and Tobago (GoRTT) and the consortium partners, bp Alternative Energy Trinidad and Tobago (bpATT), Shell Renewables Caribbean (Shell), and Lightsource bp, ...

The solar project is being constructed by a consortium made up of bp Alternative Energy Trinidad and Tobago (bpATT) and Shell Renewables Caribbean (Shell). Lightsource bp is the construction manager for the project. ...

The T& T Government said, "The two sites will have a combined capacity to generate a total of 112.2 MW of solar electricity, more than the total generating capacity of most islands in the Eastern Caribbean. This will be the largest solar project in ...

The T& T Government said, "The two sites will have a combined capacity to generate a total of 112.2 MW of solar electricity, more than the total generating capacity of most islands in the Eastern Caribbean. This will be the ...

Lightsource bp has been given the green light to begin development on what it said will be Trinidad and Tobago's first large-scale solar project, a 148MWp plant located across two sites.

The Solar PV Project is set to be the first utility scale renewable power generation facility within Trinidad and Tobago, set to deliver 112.2MW onto the grid. The arrival to this point is a testimony of the Government's steadfast commitment to decarbonizing the power sector and represents an energy milestone as we create a new energy mix to ...

With locations at Brechin Castle (with 122 MWp) and Orange Grove (with 26 MWp), the project is expected to produce enough power for the equivalent of 42,500 homes. "This is a big deal for Trinidad and Tobago, as ...

T& TEC and a consortium comprising bpTT, Shell T& T and Lightsource BP signed the agreement to develop two solar power plants at Brechin Castle and Orange Grove, providing 112 megawatts (MW) of...

## **Trinidad and Tobago The Largest Solar Power Plant in the World**

The Government of the Republic of Trinidad and Tobago (GoRTT) and the consortium partners, bp Alternative Energy Trinidad and Tobago (bpATT), Shell Renewables Caribbean (Shell), and Lightsource bp, have completed negotiations on the development of a 112MWac/148MWp solar project.

The solar project is being constructed by a consortium made up of bp Alternative Energy Trinidad and Tobago (bpATT) and Shell Renewables Caribbean (Shell). Lightsource bp is the construction manager for the project. The project is expected to produce approximately 300,000MWh of green electricity per year.

The Solar PV Project is set to be the first utility scale renewable power generation facility within Trinidad and Tobago, set to deliver 112.2MW onto the grid. The arrival to this point is a ...
