Turkmenistan - ranking 4th in the world in terms of natural gas reserves after Russia, Iran and Qatar - has already signaled its willingness to shift its energy policy vector westward.

Turkmenistan: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

Turkmenistan's energy sector faces a variety of challenges that need to be addressed to ensure the efficient development of the energy market and the establishment of a favorable investment climate. Sizeable subsidies had provided Turkmen citizens with free electricity, gas, and drinking water since the 1990s.

The proposed TA will promote the use of advanced technologies and support pioneering integrated renewable energy solutions for Turkmenistan. Specifically, the TA will support the ...
