

Who is Eurowind energy?

Eurowind Energy develops, constructs, and operates renewable energy parks. We are dedicated to local long-term solutions, and we believe that the future of energy supply is renewable, clean, and sustainable. Eurowind Energy A/S is a Danish company that specialises in the development, construction, and operation of renewable energy parks.

How much wind power does Turkey have?

Wind power generates about 10% of Turkey's electricity, mainly in the west in the Aegean and Marmara regions, and is gradually becoming a larger share of renewable energy in the country. As of 2024, Turkey has 12 gigawatts (GW) of wind turbines. The Energy Ministry plans to have almost 30 GW by 2035, including 5 GW offshore.

How many GW does Eurowind energy have?

Furthermore, as of July 1st, 2024, our development portfolio includes more than 53 GW. At Eurowind Energy A/S, we believe that the future of energy supply is local, circular, and sustainable.
