

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

Will the Virgin Islands reduce fossil fuel use by 60% by 2025?

The Virgin Islands, with support from the U.S. Department of Energy (DOE) and the Office of Energy Efficiency and Renewable Energy (EERE), have set a goal of reducing fossil fuel use by 60% by 2025.

How many solar energy systems are installed in the Virgin Islands?

Nearly 1,500 solar energy systems have been installed throughout the territory. 15 MW of distributed solar PV are either in place or under construction. As a result, the Virgin Islands government has authorized \$35 million in funding to install lighting and water retrofits in 34 more schools.

Why should the US Virgin Islands own solar assets?

The US Virgin Islands should invest in solar assets for enhanced portfolio diversification and risk mitigation. WAPA ownership guarantees coverage by WAPA and FEMA during natural disasters, eliminating uncertainties (1. Enhanced Portfolio Diversity: WAPA diversifies its energy portfolio, ensuring a more resilient and sustainable future).

Is the US Virgin Islands a good place to start a wind farm?

The US Virgin Islands have been recognized as a regional leader in clean energy due to the success of collecting wind resource data for its first commercial wind farm. DOE's National Renewable Energy Laboratory has collected the necessary data for this project.

Why should you visit the US Virgin Islands?

The US Virgin Islands are an attractive destination due to their abundance of sunshine and ocean breezes, making them an ideal spot for a tropical getaway. These characteristics also make the territory a natural fit for emerging renewable energy technologies such as solar, wind, and water power.

The U.S. Virgin Islands (USVI), part of the Leeward Islands of the Lesser Antilles, became a U.S. territory in 1917 and is located in the Caribbean Sea, about 1,100 miles southeast of Miami, Florida. 1,2 The USVI has no fossil energy reserves, but does have some renewable resources, particularly solar energy. 3,4,5 The USVI imports petroleum products to meet nearly all of its ...

NREL is a national laboratory of the U.S. Department of Energy, Office of Energy Efficiency & Renewable Energy, operated by the Alliance for Sustainable Energy, LLC. Contract No. DE-AC36-08GO28308 . Waste-to-Energy Evaluation: U.S. Virgin Islands . Jerry Davis, Scott Haase, and Adam Warren . Technical

Report NREL/TP-7A20-52308 . August 2011

This infographic highlights progress the U.S. Virgin islands has made toward meeting its goal of a 60% reduction in fossil fuel use by 2025. Click on the link below to download a full-resolution version.

Energy Information Administration - EIA - Official Energy Statistics from the U.S. Government The page does not exist for . To view this page, please select a state: The page does not exist for . To view this page, please select ... In 2023, propane generated almost three-fifths of the U.S. Virgin Islands" (USVI) electricity, fuel oil about two ...

This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery Energy Storage Solutions (BESS) across six ...

Energy Department In February 2010, the governor signed a memorandum of . Helps Advance Island Clean Energy Goals. U.S. Virgin Islands Signs Solar Deal Worth \$65 Million. Like many islands around the world, the U.S. Virgin Islands (USVI) is nearly 100% dependent on fossil fuels, leaving it . vulnerable to global oil price fluctuations that can ...

By transitioning from oil imports to use of local, indigenous renewable resources and efficient technologies, the U.S. Virgin Islands--with support from DOE--is developing a model for job creation, industrial transformation, and technological innovation in island energy systems. The U.S. Virgin Islands, having recognized the value of its ...

U.S. Virgin Islands The U.S. Virgin Islands" Clean Energy Goals: o Reduce fossil fuel-based energy consumption 60% by 2025 o Generate 30% of peak capacity from renewables by 2025. Government and Utility Overview Government Authority Ministry: Virgin Islands Energy Office Key Figure: Elmo Roebuck, Jr. Designated Institution for Renewable ...

United States Virgin Islands: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery Energy Storage Solutions (BESS) across six strategically positioned solar parks. The ...

This profile provides a snapshot of the energy landscape of the U.S. Virgin Islands (USVI) - St. Thomas, St. John, and St. Croix. The Virgin Islands archipelago makes up the northern portion of the Lesser Antilles and the western island group of the Leeward Islands, forming the border between the Atlantic Ocean and the Caribbean Sea.

The U.S. Virgin Islands Energy Office received \$104,000 to offer consumer rebates for purchasing certain ENERGY STAR appliances, which reduce energy use and save money for families, while supporting the local economy. The Territory of the U.S. ...

U.S. Virgin Islands Energy Road Map: Analysis Eric Lantz, Dan Olis, and Adam Warren. Technical Report NREL/TP-7A20-52360 . September 2011 . NREL is a national laboratory of the U.S. Department of Energy, Office of Energy Efficiency & Renewable Energy, operated by the Alliance for Sustainable Energy, LLC.

The Virgin Islands Energy Office (VIEO) develops and delivers policies and programs designed to support the growth and sustainability of clean, resilient, reliable energy production and distribution in the Virgin Islands in order to ...

U.S. Virgin Islands 2023 Energy Baseline Report Dan Olis and Laura Leddy National Renewable Energy Laboratory Suggested Citation Olis, Dan and Laura Leddy. 2024. U.S. Virgin Islands 2023 Energy Baseline Report. Golden, CO: National Renewable Energy Laboratory. NREL/TP -7A40 88770.

young people in the U.S. Virgin Islands about renewable energy technologies and their energy and environmental impacts. Photo from Don Buchanan, Virgin Islands Energy Office, NREL/PIX 20152. Challenge When Clean Islands International began operating The Virgin Islands Environmental Resource Station (VIERS) for the
