The Beyond the Grid Fund for Africa (BGFA) has signed two new agreements in Uganda to establish new mini-grids and scale up distribution of solar-powered refrigerators in the country. Access to electricity and off-grid ...

The Beyond the Grid Fund for Africa (BGFA) has signed two new agreements in Uganda to establish new mini-grids and scale up distribution of solar-powered refrigerators in the country. Access to electricity and off-grid refrigeration will allow small and medium-sized businesses in rural communities to establish new ventures to support economic ...

Effisol Energy Solutions is a solar energy solutions provider based in Visakhapatnam, Andhra Pradesh, India. The company was founded in 2016 and specializes in the design, installation, and maintenance of solar power systems for residential, commercial, and industrial customers.

The Program is set to make high-quality, off-grid solar systems, clean cooking solutions, and productive energy use equipment affordable to millions of Ugandans, including those in refugee settlements.

1. Environmental Sustainability: By utilizing renewable energy sources, Uganda can significantly reduce its reliance on fossil fuels, leading to lower greenhouse gas emissions. This transition is vital for combating climate change and protecting the environment. 2. Energy Independence: Uganda has abundant renewable resources, including solar ...
