

What does the Montserrat Energy Department do?

To collaborate with various regional and international development partners to facilitate the implementation of Energy Efficiency, Energy Conservation and Renewable Energy programs and projects. The Montserrat Energy Department is launching the next phase of its Efficient Energy initiative by distributing 250 Plug-In Meter Readers.

Can wind energy be implemented in Montserrat?

Although wind energy has not yet been fully re-explored in Montserrat, a desktop study using RE-SAT wind resource maps was conducted to determine suitable locations for the implementation of wind energy. The outcome of this study was included in their first Environmental Statistics Compendium in Montserrat, which was published in 2020.

What is Montserrat energy policy 2016-2030?

(Montserrat Energy Policy 2016-2030). o In-country commitment is vital for the success of partnership projects: The lead partner in Montserrat, the Energy Unit at the Ministry for Communications, Work, Energy and Labour (MCWEL), facilitated the engagement with other organisations.

How much does electricity cost in Montserrat?

Montserrat's utility rates start at \$0.53 per kilowatt-hour (kWh) for residential customers, which is above the Caribbean regional average of \$0.33/kWh. Like many island nations, Montserrat is almost entirely dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Who created the Energy Task Force in Montserrat?

An Energy Task Force was created in Montserrat, which included the Energy Unit of MCWEL, the Program Management Office in Montserrat, MUL and a Blue Economy consultant, that was charged with the creation of an alternative IRP.

Does Montserrat need a geothermal plant?

To go beyond this, Montserrat is developing plans to ensure the electricity system can operate reliably. The target of 100% was based on information provided from the 2010 geothermal study<sup>4</sup>, and an Early Market Engagement exercise in 2017 to procure a 2.5-5MW geothermal plant which would satisfy 100% of the Montserrat energy requirement.

The Policy aims to educate the population on energy conservation and create modern energy infrastructure inclusive of renewable energy, supported by well-defined and established governance, institutional, legal, and regulatory frameworks

This document presents Montserrat's Energy Report Card (ERC) for 2020. The ERC provides an overview of the energy sector performance in Montserrat. The ERC also includes energy efficiency, technical assistance, workforce, training, and capacity building information, subject to the availability of data.

potential, an essential resource in Montserrat's future energy strategy. Montserrat wants to attract UK businesses to invest in the island's renewable energy and other sectors. To that end, I recently returned to Montserrat as part of the FCDO-funded UK-Montserrat Trade and Private Sector Investment Project, for which
