

Who is Eku energy?

Eku Energy is a global battery storage business on a mission. We're working across the full project life cycle to develop, build, and manage energy storage assets with the aim of advancing the energy transition and facilitating the delivery of safe, secure, reliable clean energy worldwide.

How many MWh will Eku energy have?

Upon completion of the launch in all proposed jurisdictions, Eku Energy will have 190 MWh of flexible storage capacity under construction and a further development pipeline of more than 3 GWh across the United Kingdom, Australia, Japan, and Taiwan.

What can Eku do for You?

Eku's electrical capabilities in electrical equipment operations extend to power distribution for mobile microgrids. From AC/DC medium voltage grid designs to mobile switchgear controls, our grid management services provide smart, safe, and efficient system designs.

Habitat Energy, a leading global optimiser of battery storage and renewable energy assets, has been appointed by Eku Energy, a global battery storage specialist, to optimise its Williamsdale Battery Energy Storage System (BESS), a 250MW/500MWh battery to the south of Canberra, Australia.. The Williamsdale BESS is due to be operational in 2026 and forms ...

Eku Energy is a global battery storage business on a mission. We're working across the full project life cycle to develop, build, and manage energy storage assets with the aim of advancing the energy transition and facilitating the delivery of safe, secure, reliable clean energy worldwide.

4 ???&#0183; Habitat Energy, a leading global optimiser of battery storage and renewable energy assets, has been appointed by Eku Energy, a global battery storage specialist, to optimise its Williamsdale Battery Energy Storage System (BESS), a 250MW/500MWh battery to the south of Canberra, Australia.

Macquarie-backed Eku Energy has completed the financing on its first battery energy storage system (BESS) project in Japan. The pureplay energy storage developer, jointly owned by Australia's Macquarie Asset Management (MAM) fund and Canada's British Columbia Investment Management Corporation (BCI) made the announcement last week (2 July ...

Macquarie Asset Management's Green Investment Group has today announced the launch of Eku Energy, a global battery storage platform. Upon completion of the launch in all proposed jurisdictions, Eku Energy will have 190 MWh of flexible storage capacity under construction and a further development pipeline of more than 3 GWh across the United ...

Global energy storage developer Eku Energy has started constructing two UK battery energy storage systems (BESS), totalling 130MWh of capacity. The two BESS, situated in Basildon, Essex, and Loudwater, ...

Battery storage is a critical enabler of the clean energy transition, helping to cost-effectively integrate renewable energy at scale while providing vital flexibility to increase the resilience and reliability of electricity systems globally.

Global energy storage developer Eku Energy has started constructing two UK battery energy storage systems (BESS), totalling 130MWh of capacity. The two BESS, situated in Basildon, Essex, and Loudwater, Buckinghamshire, will utilise NHOA Energy's, a developer of turn-key energy storage systems, battery technology marking the company's entry ...

Battery storage company Eku Energy aims to expand its global energy storage capacity to 9 gigawatt-hours by 2028 from about 1.3 GWh now, to help hasten the energy transition and maximise the...

Eku Energy has been established at a time when demand for battery storage is rapidly growing due to its role as a critical enabler of the low-carbon economy and clean grids. By 2030, it is forecast that capacity is expected to increase 15 times over from 46 GW in ...
