

The BMS Pylontech Control Unit S C1000-100S is the matching battery management unit for the Pylontech HV battery H48050/H48074. The SC1000-100S is the central control unit in a high-voltage battery storage system based ...

The BMS SC1000-100S is a battery management system that is compatible with the Pylontech H48050 and H48074 high-voltage batteries, and allows you to monitor the status of each of the modules and cells. It is necessary to have at least 2 H48050 or H48074 batteries next to the BMS to be able to mount a Powercube H1/H2 rack.

Optimize your energy storage system with the Pylontech BMS SC1000-100S! This intelligent battery management system is designed to monitor and optimize the performance of your high-voltage Pylontech batteries. With its advanced ...

Part No: PYL-PC-SC1000-100-BMS-N1 Category: Storage Systems - Communication Module. Product Overview: The Pylontech Stack Controller BMS Unit for Powercube H2 Batteries is designed to provide advanced battery management for high-voltage energy storage systems.

442\*390\*100 442\*390\*132 Remark: The parameter will be changed when the battery modules in different series (5~18pcs battery modules). \*Standard current is for capacity measurement using; Normal current is the operation current sending from BMS; Max. current is the peak current for 15sec. 2.2.2 Battery Module (H48050, H48074) Product Type H48050

No. Product Type SC1000-100S 1 Related Product H1/H2 2 Controller Working Voltage 200~1000Vdc 3 System Operation Voltage(Vdc) 200~1000 4 Charge Current(Max.)(A) 100 5 Discharge Voltage(Vdc) 200~1000 6 Discharge Current(Max.)(A) 100 7 Self-consumption Power(W) 8 8 Dimension(W\*D\*H,mm) 442\*390\*132 9 Communication RS485CAN

Pylontech offers reliable, efficient and smart energy solution for your home. With advanced battery technology, it ensures uninterrupted power supply, reduces energy costs, and optimizes your ...

The BMS Pylontech Control Unit S C1000-100S is the matching battery management unit for the Pylontech HV battery H48050/H48074. The SC1000-100S is the central control unit in a high-voltage battery storage system based on an iron phosphate lithium battery.

Pylontech SC1000-100S BMS Controller for use with the PowerCube H1/H2 High Voltage series \*Please note this is a component of the PowerCube H1/H2 range of ESS Modules . PowerCube-H1 / H2 Range is a high voltage battery storage ...

Adem s, el SC1000-100S puede monitorear el estado de carga de las bater as en tiempo real y proporcionar informaci n  til sobre el rendimiento del sistema. Con este BMS podemos formar ...

El Pylontech SC1000-100S BMS destaca por su capacidad para maximizar la eficiencia energ tica, posicion ndose como una soluci n l der en tecnolog a de almacenamiento. ...

Optimize your energy storage system with the Pylontech BMS SC1000-100S! This intelligent battery management system is designed to monitor and optimize the performance of your high-voltage Pylontech batteries. With its advanced features, the BMS SC1000-100S ensures optimal protection of your investment and guarantees maximum energy independence.
