

BRANTV is initially supporting 40 communities with solar Photovoltaic (PV) and pico hydropower systems. Since November 2019, BRANTV has installed community-scale solar PV systems with capacities ranges between 1100 W to 3300 W in five communities. The communities have a total population of 845 of which 47% are women.

The installed solar PV system is a stand-alone 230/400 VAC 50Hz solar micro-grid combined with 48V batteries operating 24 hours and 7 days a week. The solar PV micro-grid system provides clean, affordable and reliable electricity to 2,814 people and seven institution : Wintua Primary School, Wintua Secondary School, Police Post, Community Hall ...

With the remoteness of the islands and limited access to centralised utilities, PCS also offers self supporting products suitable for the Vanuatu environment, including solar showers, hand spears, personal solar lighting and Lifestraw water filters.
